

Spreader Bar for Forklifts

Forklift Spreader Bars - ELME has been proudly operating ever since nineteen seventy four, becoming the biggest independent spreader company all-around the world. They are a dedicated manufacturer of spreaders used for many different applications like for instance the handling of containers, swap bodies and trailers.

Engineering is done in-house by way of utilizing all of the newest FEM tools and CAD systems. The ELME business presently has over 125 staff members. Their spreaders are supplied to reach gantry, quayside, ship-to-shore cranes, stackers, straddle carriers and lift trucks all-over the globe.

The ELME product range offers spreaders for different container and trailer handling operations. A few of their inventory include: Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail Mounted and Rubber Tired Gantry Cranes plus a huge variety of additional parts.

ELME manufacturing and production is performed in a highly automated purpose built factory. In 2008, they created more than 1150 spreaders by way of making use of top quality parts so as to ensure reliability and high standards while offering reasonable prices. Major characteristics of ELME comprise design simplicity, market feedback and ground-breaking modular spreader concept.
