

SVE Truck Attachment

SVE Truck Attachments - Svetruck initiated the company in 1977 with a clear idea of what particular kind of company they wanted to be and what particular kind of merchandise they wished to produce. They designed a durable, service-friendly and reliable forklift. Svetruck specializes in producing forklifts that allow the person operating it to perform well within challenging environments. Svetruck believes that being capable of performing successful and safe material handling in the best way possible really helps to contribute to a positive work environment.

Their facility in Ljungby is home to the making of forklifts, container handlers as well as log-stackers. These days, Svetruck is proudly supplying forklifts all over the world.

Focused on the future, Svetruck is still completely dedicated to safeguarding their excellent reputation of producers of reliable and durable forklifts. Their fundamental approach to high quality, solid experience and over thirty years of expertise in the subject, means they can offer people brilliant solutions for their material handling needs.
